## **ABOUT OUR DEPARTMENT:**

**The Department of Science & Humanities plays a significant role to lay a strong foundation to the major Engineering Courses like ECE, CSE, IT, MECH, CSE(AI & ML), EEE and CIVIL Engineering.**

□ **English, Engineering Physics, Engineering Chemistry, Mathematics, Engineering Drawing and Computer Programming are the key subjects that are taught in the first year of Engineering Program.**

□ **In addition to the regular subject knowledge, students imbibe the essential quality of Human Values, Professional Ethics and Soft Skills through classroom teaching and counselling which form the crux of the Department. Counselling plays a key role to the Professional students and this aspect is also given prime importance in the department with the help of cordial staff members.**

□ **The students are counselled to perform better and have a strong grip over the subjects. Attendance is monitored regularly to improve the results. Weekly tests are conducted on a regular basis to recall their progress. The dedicated faculty members of Science & Humanities have addressed themselves to orient the students towards the ultimate goal of relating their knowledge to the reality of life situations. Well-Designed courses in the First Year can help to bridge the gap between the profession, a student eventually wants to practice and the necessary preparation for their profession. The department strives to lay a strong foundation of theory and analysis in its curriculum and engage the students in creative and integrative experience**

□ **To enhance the practical knowledge of students, improvised infrastructure and equipments are provided in the Engineering Physics and Engineering Chemistry labs. Engineering Drawing Labs, Engineering Workshop help the students to widen their practical knowledge. Communication Skills are inevitable for professional education and there is no stone left unturned in the Science & Humanities department to enrich the working knowledge of English through activity based English Labs (Computer Aided Language Learning and Interactive Communication Skills Labs)**

## Responsibilities taken towards students

- ❑ Provided conceptual knowledge and make them visualize the things( by conducting Group Discussions & Interviews frequently (not only in the lab))
- ❑ Identified the weak points of the students (stage fear, shyness, medium)
- ❑ Made them trying to overcome their weak points by encouraging them to give Presentations frequently
- ❑ Developed the hidden talents of the students (extracurricular activities like singing, dancing etc....)

## **MENTOR MEETING:**

- ❑ The general perception that being a good Mentor requires a special skill is a misconception. Mentors are good teachers, who are also good role models.
- ❑ Mentors role includes assessing, guiding and advising the students towards their professional and personal development. Teachers in turn are benefited by mentoring as it gives them a thorough understanding of the difficulties faced by the students apart from giving them a sense of satisfaction and achievement in their career.
- ❑ Identifying students' problems and finding solutions to solve them will be the core discussion in 'most of the mentor meetings. Frequently mentors should meet students one to one whenever necessary.

## **DEPARTMENT OF HUMANITIES AND SCIENCES**

### **STUDENT COUNSELING**

- ❑ Counselling is a form of therapy that allows an individual to talk about his problems and feelings in a confidential setting.
- ❑ A trained counsellor listens with empathy and helps in dealing with any negative thoughts or emotions that an individual vents out during a session.
- ❑ Counselling promotes personal, social, educational, and career development, and helps to enhance an individual's morale.
- ❑ In a college setting, a guidance counsellor is the best person who attends to the counselling needs of a student, a parent, a guardian, or a professional associate.
- ❑ Through a support system, student planning, and guidance curriculum instruction, counsellors are able to promote student achievement and provide support to students in varied methods or approaches.
- ❑ Most of the colleges offer a counselling service for free, which students can avail of. Counselling provides a chance for students to talk to an impartial expert in a confidential environment.
- ❑ This allows students to freely explore their true feelings and be offered support without judgement. Trained counsellors do not simply give out advice.
- ❑ Since each individual is unique in their own way, counsellors usually encourage discussions aimed at helping individuals understand their situation and what would help them best.

## LIST OF SPECIAL DAYS IN APRIL MONTH:

### Ugadi: APRIL 2<sup>nd</sup>

Ugadi, also known as Yugadi, is a renowned South Indian festival mainly celebrated in Andhra Pradesh, Karnataka and Telangana to commemorate the beginning of a new year. The festival of Ugadi is celebrated on the first day of Chaitra month as per the Hindu calendar. This year, Ugadi falls on April 2, Saturday. Likewise, on the same day, Gudi Padwa, the traditional New year of Maharashtra is enjoyed by the Marathi and Konkani Hindus.

### Jagjivan Ram jayanthi: April 5<sup>th</sup>

Jagjivan Ram (5 April 1908 – 6 July 1986), known popularly as Babuji, was an Indian independence activist and politician from Bihar. He was instrumental in the foundation of the All India Depressed Classes League, an organisation dedicated to attaining equality for untouchables, in 1935 and was elected to Bihar Legislative Assembly in 1937, after which he organised the rural labour movement.

## Ram Navami: April 10<sup>th</sup>

Ram Navami, is looked upon as an important Hindu Festival, and a celebration to honor the birth of Lord Ram, the seventh avatar of Lord Vishnu. So, every year, with a lot of faith and dedication, around March and April, millions of Hindus around the world flock into temples to celebrate Lord Ram's birth.
