The MNR College of Pharmacy, Sangareddy has conducted two week certificate course on **HTML & CSS** under the guidance of Principal Dr. V Alagarsamy. This document offers the detail information of the programme conducted in a form of report.

Objectives:

The important goal of this programme is to introduce basic knowledge about various method and techniques involved HTML & CSS. It also provides better platform to the student community for gaining the knowledge about designing of webpage by using HTML & markup text. It also taught the students to manipulate text, images, and other content by html and markup text to produce the required format. Hence, the major objectives are

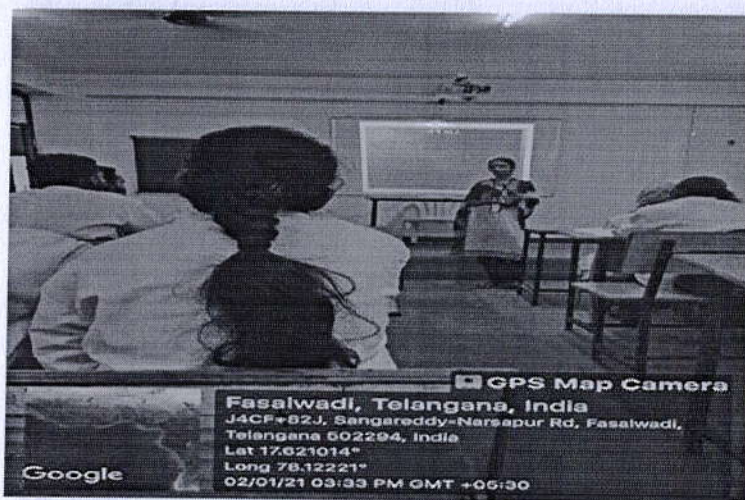

- To obtain knowledge about the fundamentals of web development
- To know about CSS and text alignment
- To learn about work with forms
- To gaining knowledge about the graphics attachment
- To acquire the knowledge about different types of CSS

Learning Outcomes:

- Know to create interactive webpage with the help of HTML
- Know the application of HTML & CSS
- Learn web designing
- Learn to handle cascading style sheets

Objectives of the Course:

The main aim of this course is to deliver applications of analytical instruments in qualitative and quantitative assay of drugs. This two week certificate course provide detailed information to the students community about working principles and handling of UV, FTIR, HPLC, Gel Electrophoresis and HPTLC etc., Hence, the major objectives are

1. To learn about fundamentals of analytical techniques.
2. To know about handling of various analytical instruments.
3. To learn about error, accuracy, precision, sampling techniques, safety measures in sampling etc.
4. To know about advanced instrumentations techniques and their applications in Pharmaceutical Industries.

ABOUT THE COLLEGE

MNR College of Pharmacy at Sangareddy, one-hour drive away from hi-tech city, is one among the 78 top grade institutions run across the globe by MNR Educational Trust. This trust was formed in 1974 by Sri. M. N. Raju with the noble aim to shape the student into proud citizen of this great nation, laying emphasis on honing their intake skill and addressing their psychological and spiritual needs. Sri. M. S. Ravi Varma, the dynamic Vice-chairman of this trust adds a perfect blend of modern approaches required to achieve the goal. The colleges possess state of the art laboratories providing the best platform for training the students to become a scientist, industrial or community pharmacist. Our trust entered MOU with various industries in and around Hyderabad, as well as with foreign universities to meet the global standards.

The MNR College of Pharmacy, Sangareddy has conducted two week certificate course on **Advanced Instrumentation Techniques in Analytical Chemistry** under the guidance of Principal Dr. V Alagarsamy. This document affords the comprehensive information about programme conducted in a form of report.

Objectives:

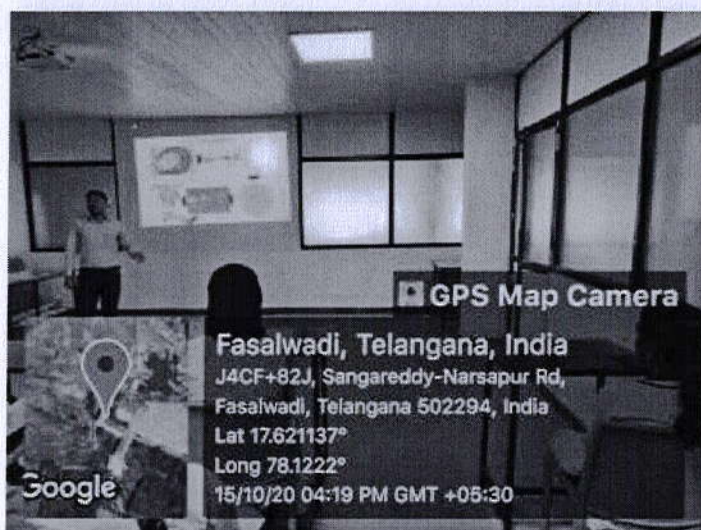

The main aim of this course is to deliver applications of analytical instruments in qualitative and quantitative assay of drugs. This two week certificate course provide in detailed information to the students community about working principles and handling of UV, FTIR, HPLC, Gel Electrophoresis and HPTLC etc., Hence, the major objectives are

- To learn about fundamentals of analytical techniques
- To know about handling of various analytical instruments
- To learn about error, accuracy, precision, sampling techniques, safety measures in sampling etc
- To know about advanced instrumentations techniques and their applications in Pharmaceutical Industries

Learning Outcomes:

- Know to handle advanced instruments
- Know about the instrumental methods of analysis of drugs
- Applications of sophisticated instruments in the QA department pharmaceutical companies

Mr. Ramgopal Appani, Assistant Professor, Dept of Pharmaceutical Chemistry, MNR College of Pharmacy, Sangareddy delivering lecture about Principles of HPLC

This course was very beneficial and supportive to the students for learning about the **Advanced Instrumentation Techniques in Analytical Chemistry** and its applications in the determination of quality of Pharmaceutical Products. The Management and the Principal Dr. V. Alagarsamy appreciated the resource persons and students for making this course as effective one.

Objectives of the Course:

The main aim of this course is to provide complete knowledge about various chemistry softwares and their applications in academic and Pharmaceutical Industries. This two week certificate course provides detailed information about the various free softwares and their operations. Hence, the major objectives are

1. To provide knowledge about free various chemistry softwares used in pharmaceutical chemistry.
2. To know about handling of softwares.
3. To learn about drawing of chemical structures, solving stoichiometric related problems, calculating physical properties etc.
4. To know about thermodynamic calculations, calculations of free energies, bond length, bond order, bond angle etc.

ABOUT THE COLLEGE

MNR College of Pharmacy at Sangareddy, one-hour drive away from hi-tech city, is one among the 78 top grade institutions run across the globe by MNR Educational Trust. This trust was formed in 1974 by Sri. M. N. Raju with the noble aim to shape the student into proud citizen of this great nation, laying emphasis on honing their intake skill and addressing their psychological and spiritual needs. Sri. M. S. Ravi Varma, the dynamic Vice-chairman of this trust adds a perfect blend of modern approaches required to achieve the goal. The colleges possess state of the art laboratories providing the best platform for training the students to become a scientist, industrial or community pharmacist. Our trust entered MOU with various industries in and around Hyderabad, as well as with foreign universities to meet the global standards.

- Know to handle various chemistry software tools.
- Know the applications of softwares.
- Learn about to draw 2D & 3D structures, stoichiometric calculations etc.

TOPICS TO BE COVERED

- Chemdraw-Introduction
- Tools in Chemdraw
- Drawing of 2D structures
- Assigning bond length, bond angle
- Drawing 3D structures
- Chemdraw for excel
- Handling of forms
- Chems sketch
- Chemdraw cloud
- Chem3D
- Chem ultra
- Chemsript
- Document Tagging
- Mnovachemdraw
- Chemoffice plus cloud
- Molycule
- Gauss view
- Crystal Maker X software
- Vista crystal structure
- Marvin Sketch
